**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please dont eliminate internet provider competition! Ive been a customer of Sonic for nearly three years and Ive never had reason to complain about my service or internet speeds. I chose Sonic because of all the horror stories Id heard of the big telecoms with their terrible customer service and unreliable and expensive internet service. Isnt competition what makes capitalism work? Dont destroy small businesses who are working hard to build to something better. If they didnt have a good business model, they should have been snuffed out years ago by these huge companies!

I want choice and smart regulation that brings me the best service. Its ridiculous that were so far behind other countries in this industry and killing competition isnt going to make it better.
